Subject Index

Acetoxyalkyl-nitrosamines 109
AChE 163
Acrylamide 203
Action potentials 343
Adrenal cortex hypertrophy 145
Air concentrations of herbicides 257
Alkylation 181
Ames Salmonella-microsome assay 139
9-Amino-7-methoxy-1,2,3,4-tetra-hydroacridine 163
Aminopyrine 131, 323
Anion transport, renal 35
Antidotes of the bispyridinium type 171
Autoradiography, whole body 97, 311

Behavioral impairment (Cd) 297
Biliary flow in the rat 247
Bisquaternary pyridine salts (H-oximes) 171

Cadmium 235, 275, 289, 297
Calmodulin dependent phospho-diesterase 61
Cancer chemotherapeutics 25
Carcinogenicity 25, 181, 331, 323
Catalepsy 1
CCl_4 275
Chelating agents and Cd 235
Chemiluminescence 227
Chlorinated paraffins 145, 181, 275, 353
2-Chlorobenzylidene (CS) 139, 167
Chloroform 145
Cholesterol 145
Cholinergic receptors 171
Chromatin subfractions, preparation of 215
Citrinin 35
Concanavalin A 227
Corticosterone, determination of 145
Covalent binding 181
Crotonamide 203
Cultures, cell 53, 97, 343
–, tissue 109, 343
Cutaneous effects by fenvalerate 195
Cytochalasin D 227
Cytochrome P-450 131
Cytostatic drugs 25

2,4-D 257
Dermal absorption, uptake by 257, 267
Dichlorprop 257
Digitoxin 275
Dimethylnitrosamine (DMNA) 215, 323
Dimethylnitrosamine, quantitative estimation of 323
Distribution and excretion 83, 97, 243, 257, 267, 303, 311
Dithiocarbamates 235

E. coli, RNA polymerase from 215
Electrophysiology 343
Embryonic tissues, distribution in 97
Embryos 97, 109
Emotionality 1
Epoxide hydrolase, cytosolic 331
Estrogen excretion, urinary 41
Ethylmorphine 131

Fenvalerate 195
Fetotoxicity 97, 109, 297, 331
First-pass 71
Free fatty acids 157
Fungal toxins 35

Glutathione S-transferase activity 331

Hatchability of hens 353
Heavy metals 53, 61, 97, 235, 243, 275, 289, 297, 303
Herbicides, phenoxy acid 257, 267
Histology 97, 203, 343
"H-oximes" 171
Human liver, fetal and adult 331
Human subjects 25, 195, 257, 267
Humoral antibody response 289

Inclusion bodies, cytoplasmic 247
Insecticidal strength of pyrethroids 195

Laboratory animals (normal mice and rats not mentioned)
  Chick embryos 353
  Chicks, one week old 83
  Dogs 71
  Drosophila, male 167
  Guinea pigs 303
  Marmosets (Callithrix jacchus) 41
  Mice, pregnant 97, 109
  Rabbits 227
  Rat embryos 343
Lead 61, 97
Lethal mutations in sperm cells 167
Levamisole 275
LD_{50} 275
Limb bud culture 109
Limb bud differentiation 109
Lipid peroxidation 53
Liver, human 331

Manganese 53, 243
Mecoprop 257
Mercapturic acid 139
Mercury, methyl 303
Metabolism 83, 131, 139, 157
Methylchlorophenoxy acetic acid 257, 267
Micronucleus test 167
Mississippi delta 195
Motor activity 1, 297
MTX, protective effect of 163
Mutagenicity 25, 139, 167, 181
Myelin damage 203

Nephrotoxicity 35
Neurobehavioral testing 1, 297
Neuroblastoma cell cultures 53
Neurotoxicity 83, 203, 297, 353
Neurotubulin 203
Nitrite 323
Nitrosamines 109, 215, 323
Nurses handling cytostatic drugs 25

Occupational exposure to
cytostatic drugs 25
fenvalerate 195
phenoxy acid herbicides 257, 267
Oil, oleylanilide in 157
Organ distribution of
lead 97
toxaphene 311
trichloroethylene derived radioactivity 181
Organophosphates 71, 83, 163, 171
Orphenadrine 131
Oxamniquine 247
Ovulation 41

PAH 35
Parathion 71
Penicillium citrinum 35
Phosphodiesterase 61
Phosphorylation 61
Plaque forming cells (PFC), splenic 289
Pregnancy, timing of 41
Prenatal toxicity 97, 109, 297, 331
Probenecid 35
Protein binding 71
Pyrethroids, synthetic 195

Recovery in faeces and urine 157
Riot control agents CS 139, 167
RNA and DNA, determination of radioactivity in 181
RNA polymerase activity 215
Rotarod performance test 203, 297

Salmonella-microsome assay 139, 167, 181
Schistosomiasis 247
Selenium, subcellular binding of 303
Sex-dependent hepatotoxicity 247
Sisomycin 275
Sister chromatid exchanges 25
Social interactions 1
Soman 171
Spleen cells 289
Styrene oxide 331
Superoxide anion 227

Teratogenicity 97, 109
Thiol content during manganese treatment 53
Thymus weights 289
Thyroid hormones 243
Thyroid-stimulating hormone 243
Tofenacine 131
Toxaphene 311, 353
Toxicity testing, acute 275
Toxicokinetics 71, 83
Transaminases, serum 247
Transplacental movement of lead 97
Trichloroethylene 181
Triglycerides 157, 247
Triphenyltin 227

Urine mutagenicity assay 25

Xanthine oxidase 227

Zymosan 227
